15.03.2010 - 06.04.2010

Music Festival "Printemps des Arts" at Monaco

Established in 1985, Monaco's annual Spring Arts Festival brings talented artists from around the world to entertain guests with art, music, theater and dance. Each year, several composers are commissioned to write a piece of music, which is then performed at the festival. Performances of contemporary and classical music are presented side by side, complementing each other. The aim of the festival is to encourage the audience to discover different types of music and to appeal to mixed audiences. Get ready to listen to the most impressive musicians in the most prestigious places of the Principality from 15/03 until 06/04!

At various locations: the cathedral, the opera, the Monte Carlo Casino, and the Oceanographic Museum, among others. Tickets per concert: 20-33 euros, from 7.50 euros for persons under 25 years, free for children under 13 years, full pass for 210 euros.

Reservations: +377 98 06 28 28. Further information: +377 93 25 58 04. Programme: www.printempsdesarts.com
